PLUMBING ACCESS OPTIONS
Determine the best way to connect plumbing for your washlounge.

OPTION 1: PLUMBING
From behind the basin stand connect plumbing to the wall. From the back of the stand, plumbing can be installed from a maximum height of 400mm from the floor.

OPTION 2: PLUMBING
From under the basin stand connect plumbing to the floor.
BEFORE INSTALLING YOU SHOULD CONSIDER THE FOLLOWING:

Allow for the necessary room around the unit for free movement.
- If installing against a wall, a minimum distance of 80mm between wall and bottom back of stand is required to allow free backward movement of basin.
